Professional Experience

Software Engineer 1, Parkar Digital

2023 Feb – present
Pune, India

- As a Software Engineer, my task is to deliver efficient and scalable software solutions to the client.
- I am actively involved in working on backend side and doing frontend and backend integration.
- My work includes designing and implementing the software and meet the clients requirements.

Software Development Engineering Intern, Thinkseed Systems

2023 Jun – 2023 Dec
Bangalore, India

- Worked as a Software Development Intern at a startup company and got a valuable opportunity to work within the Backend Team.
- Developed server side applications from scratch using Spring Boot Java and RestFul APIs

Projects

"An Expense Tracker website made using NestJS and ReactJS." [↗](#)

- A System designed to track the daily expenses of a user.
- User will be able track it's expenses, set monthly budget, visualize the expenses category wise or payment mode wise, get daily, monthly and weekly reports for the expenses.
- The backend of this system is developed using NestJS Framework and UI is designed using ReactJS.

"An AI Chatbot developed using MERN-Stack and OPENAI API" [↗](#)

- This is an AI Chatbot application, inspired by ChatGPT, by using MERN Stack and OpenAI.
- Its a customized chatbot where each message of the user is stored in DB and can be retrieved and deleted.
- Its a completely secure application using JWT Tokens, HTTP-Only Cookies, Signed Cookies, Password Encryption, and Middleware Chains.

"A Telegram Bot for Weather update using NestJS" [↗](#)

- A Telegram Bot for the users to get daily updates on the weather of their city once they subscribe to the bot.
- Users can subscribe and unsubscribe at any time. It is created using NestJS which is used to create server side applications.
- It also have an admin panel where the admin can block or delete the users from the bot.

Skills

- C
- Python
- Database :- MySQL.
- Database Management Systems
- Frameworks: Spring Boot in Java
- ReactJS
- Junit Testing and Integration Testing
- Java
- Git/ Github/ Bitbucket
- APPLICATION SOFTWARE : Spring Tool Suite, Visual Studio, Android Studio
- Data Structures and Algorithms
- Software Development Life Cycle
- NestJS
- HTML/CSS/JS

Education

Masters of Technology in Computer Science and Engineering, National Institute of Technology Goa

Completed Mtech with 7.55 CGPA.

2024
Goa, India

Bachelors of Engineering in Computer Science and Engineering, Trinity Academy of Engineering

Completed B.E. with 8.52 CGPA

2022
Pune, India

Coding Profiles

Github: [↗](#)

Leetcode: [↗](#)

- Solved 500+ coding problems on LeetCode with a consistent 100+ day coding streak.

GeeksForGeeks: [↗](#)

- Solved 350+ diverse coding challenges on GeeksforGeeks, maintaining a 130+ day daily coding streak.

Achievements

- Have secured first place in Social Application domain in National level event named Ideathon
- Secured AIR 1375 in Gate 2022
